### **Programme 3**

Topic : Evolving Historiography of India's  
Partition.

Date : 01-08-2020

Resource Person : Prof. Lokesh K.M  
Karnataka.

#### **Brief Report :**

S J M College of Arts, Science & Commerce Chandravalli, Chitradurga organized National Level Webinar Series:“India: Past and Future” on 01-08-2020 on the topic “Evolving Historiography of India's Partition” by Prof. Lokesh K M. The session was on **The Partition of India in 1947 was the change of political borders and the division of other assets that accompanied the dissolution of the British Raj in the Indian subcontinent and the creation of two independent dominions in South Asia: India and Pakistan. The partition caused large-scale loss of life and an unprecedented migration between the two dominions. Among refugees who survived, it solidified the belief that safety lay among co-religionists. In the instance of Pakistan, it made palpable a hitherto only-imagined refuge for the Muslims of British India. The migrations took place hastily and with little warning. It is thought that between 14 million and 18 million people moved, and perhaps more. Excess mortality during the period of the partition is usually estimated to have been around one million.**
